MEDICARE EYEGLASS COVERAGE AFTER CATARACT SURGERY

Medicare does not ordinarily cover prescription eyeglasses, with one exception. Because cataract surgery always changes the eyeglasses prescription, Medicare will cover one basic pair of glasses following cataract surgery. Frequently, this amount will not cover the full cost of your new eyewear. In addition, there is no reimbursement for options such as anti-reflective coating, scratch-resistant coating, tinting, over-size lenses, high-index (“ultra-thin”) lenses, or progressive (“no-line bifocal”) lenses.

Altos Optical is a “Medicare provider” and we are able to submit your bill directly to Medicare for your post-cataract surgery eyewear. **Medicare will reimburse you directly, based upon their fee schedule.** You are asked to pay in advance for your eyewear.

Please do not hesitate to talk to either our opticians or our bookkeeping staff if you have questions. Thank you for your order.

“One-Time Authorization”

Name of Beneficiary_____

HICN (Medicare ID#)_____

D.O.B _____

I request that payment of authorized Medicare benefits be made to me for any services furnished to me by Altos Optical Company, Inc. I further authorize Altos Optical Company to release medical information about me to the Health Care Financing Administration and its agents to determine these benefits or the benefits payable for related service.
