

INTRODUCTION

With technological advances in microsurgery evolving faster than ever, modern eye surgery requires specialized equipment, nursing, and anesthesia staff. Peninsula Eye Surgery Center has been developed by leading eye surgeons who share the vision of excellence of an outpatient ophthalmic surgical center.

Peninsula Eye Surgery Center is owned and operated by a group of ophthalmologists and joint ventured with Surgical Care Affiliates and Sutter Health. This unique partnership gives Peninsula Eye Surgery Center a wealth of resources to offer their patients for specialized eye surgery.

Peninsula Eye Surgery Center was opened in 2005 as the first outpatient surgery center dedicated solely to eyes in the San Francisco Bay Area. Our center now does the largest volume of eye surgery in Northern California, including procedures for cataract, glaucoma, cornea, eye laser procedures, and leading edge refractive lens implant surgeries.

Used by more than a dozen of the Bay Area's top ophthalmic surgeons, Peninsula Eye Surgery Center frequently hosts both national and international visiting surgeons. Being one of the busiest eye surgical centers in the state allows us to use state of the art ophthalmic surgical equipment and to employ a full time staff who specializes in eye surgery. Peninsula Eye Surgery Center has been named one of the top 30 eye surgery centers in the country by Beckers Review.

EXCELLENT CARE

Peninsula Eye Surgery Center is Medicare approved and certified by AAAHC, the top national accreditation organization.

Welcome to Peninsula Eye Surgery Center, a facility designed specifically to meet the needs of patients who require surgical treatment to improve their vision. This well-equipped and expertly staffed pre-surgery areas, operating rooms, and post-surgery recovery spaces ensure that our patients receive excellent care in a comfortable environment. When you or a loved one requires eye surgery, rely on Peninsula Eye Surgery Center to deliver the very best care.

■ Peninsula Eye Surgery Center

1128 W. El Camino Real, Mountain View, CA 94040
650-964-3200 • www.pesc2020.com

Peninsula Eye Surgery Center is located on the East side of El Camino Real between Castro and Shoreline.

Step 2:

After exiting, you will come to a traffic light intersection: El Camino Real. Turn right onto El Camino Real, heading north. The surgery center will be exactly 1.0 mile on the right. Before reaching the surgery center, you will pass through 2 traffic light intersections (first Calderon St., then Castro St.).

Step 3:

After crossing Castro Street, the entrance to the surgery center is just beyond the Passage to India restaurant on the right.
